

### Key Features

- Web portal for direct access to assets from CELUM, no need for iframes
- Easy to install into any existing website
- Modular plugins can be freely combined
- Permissions can be set in the familiar CELUM dialog
- Download in several download formats
- Download basket with ZIP function
- easily adaptable design
- Flexible pagination or infinite scroll
- Choice of Lightbox to use
- Integration for videos
- Full text search, restrictable to a node
- Advanced search with information fields, keywords and asset properties
- Send E-mails with direct links to an asset or the content of a basket

### Specifications

- Plugin for CELUM, requires 1 reader
- Custom, super efficient JSON interface
- jQuery standard in the front-end

### Components

- **anuraGallery** – classic image gallery with pagination and zoom function.
- **anuraMasonry** – Vertically stacked content boxes (like Pinterest & Co).
- **anuraCollage** – Full-width image wall to fit completely into a row.
- **anuraTable** – Tabular display with details.
- **anuraSlider** – Attractive image slider with many options and support for alternative texts.
- **anuraBasket** – Collect assets for download and to send as a link via E-mail.
- **anuraDetails** – details of an asset in a sidebar or as a popup.
- **anuraTree** – Navigation component for displaying freely defined node structures.
- **anuraSearch** – Detailed search for assets based on various characteristics.

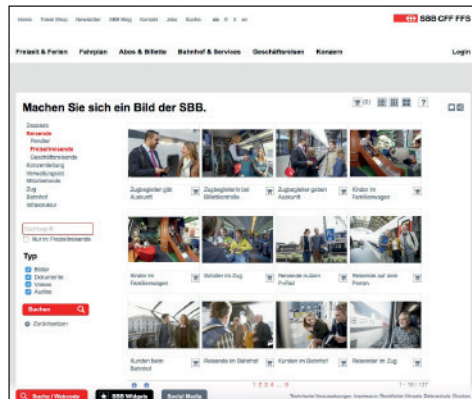

### Integration of an interactive image gallery in a single line of code

Present selected images and videos from CELUM Team or CELUM 5 directly in your web-, intranet- or brand portal. Simple, fast and effective.

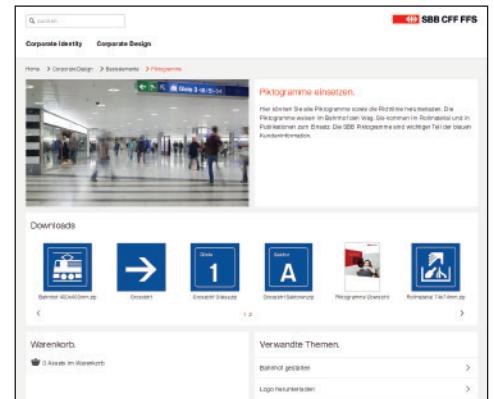

brix:anura consists of a celum extension in the backend and a modular collection of jQuery-plugins that can be integrated into any existing website within a few seconds – no iframes, no programming effort, no portal server.

Every plugin can handle node structures and is capable of displaying all available metadata languages. Check them out at <http://anura.brix.ch>

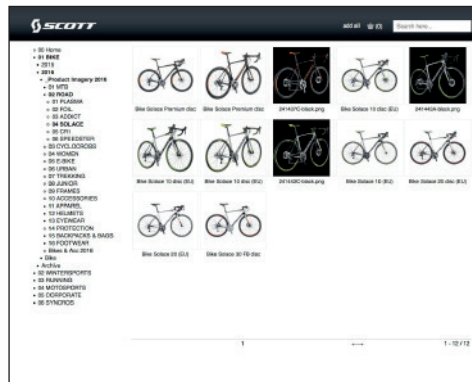

### Examples

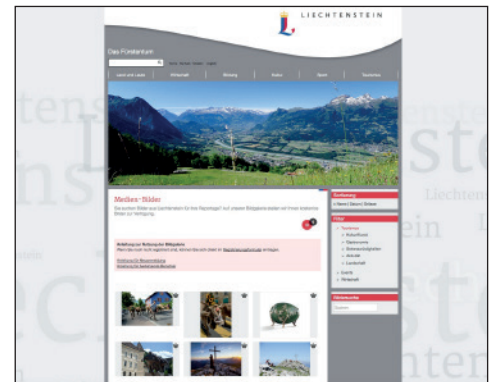

SBB-Website: <http://sbb.ch/foto>

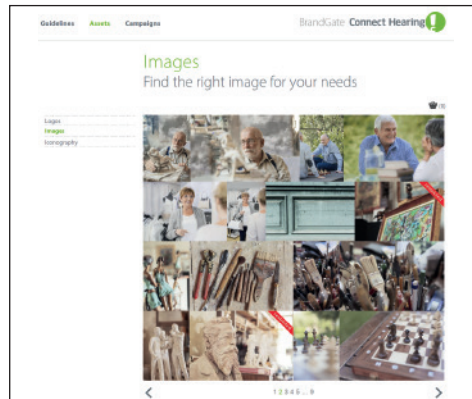

SBB CI-Net: Corporate Identity

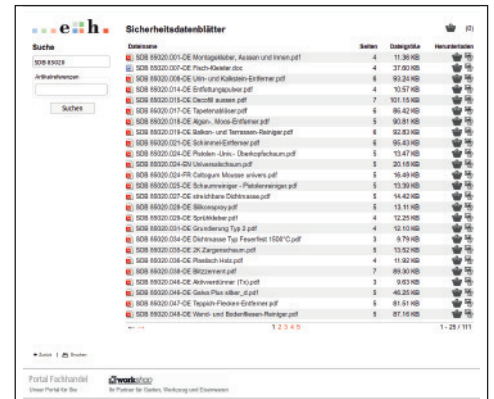

Scott Sports: Retailer portal

Liechtenstein Marketing: Media-images

Connect Hearing: BrandGate (internal)

e + h Services AG: Traders portal
